

# Games' Library

One of the things that makes tea@hart different from your average tea room is our tabletop games! In the same way you can pick up a paper to read in many cafes, you can pick up a game to play while you're here. Most evenings we also open specifically for people who want to play games too!

You can use the location below to find your game! If the location has a grid reference (e.g. 'red-1') you'll find them upstairs, at the back, on the square shelves. The tall shelves, glass shelves, and 18+ shelves are also upstairs. If you want a game but find stairs difficult just ask a member of staff and they'll happily get one for you.
